

Customer Service SKILLS - 1 day

Description:

Customer Service training isn't just for sales and customer support reps. Effectively handling both internal and external customers is an essential skill for all customer facing staff, at all levels. Having good technical skills is only half of what you need; the other half is having the skills to gain customer satisfaction, understanding, and cooperation.

In this course, you will learn methods for effective communications whether you are talking to customers to gather requirements, solve problems, or present solutions. In any field the first order of business is resolving customer enquires effectively. It is imperative to recognize the importance of customer service techniques to ensure continued business success.

Audience:

This course is for anyone who has contact with customers in any context be it face to face or a service desk.

Prerequisites: No prerequisites.

Objectives

- After completing this course, participants should be able to:
- Properly understand and fulfill customer expectations
- Establish rapport and trust with customers so they become your allies, not adversaries
